Slido is an audience participation tool, easy to use.

Before starting with this interactive tool, please read the following tips:

1/ What device should I use?

- Either your **laptop**

- Or your **phone**

2/ How do I connect?

Connect to the Wifi and:

- Open your browser and go to **Slido.com** and type event code

OR

- Simply download **the App** and enter event code

3/ How do I ask my question to the speaker?

Select the dedicated session and the 'questions' tab, then simply type your question in the input field.

⚠️ Please use **@Name of the speaker** when you want to ask a specific question to the speaker.

If there are remaining questions, the speaker will be able to answer them afterwards (➥ Reply).
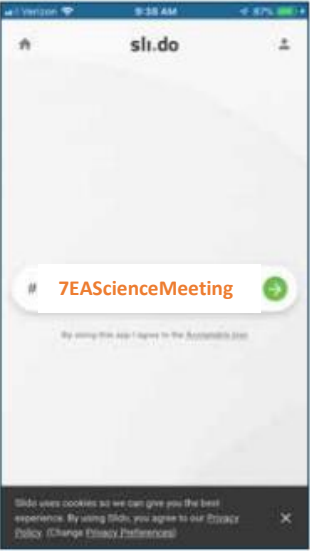

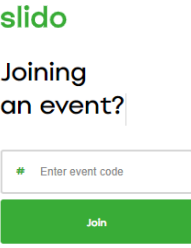

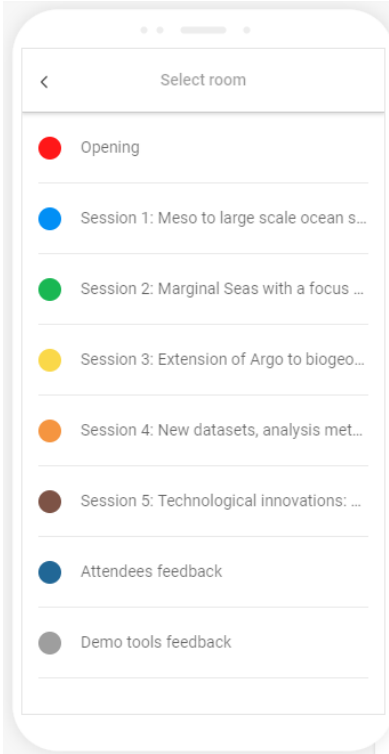

💡 Slido allows you to upvote the questions of other participants (using 👍). Questions with the highest number of votes will stand a better chance to get answered by speakers.

4/ How do I participate to a poll?

Select the dedicated session and the 'polls' tab, and simply complete the poll.

5/ Is Slido GDPR compliant?

You can either indicate your name (creation of your profile - optional) or stay anonymous when you ask a question or participate to a poll.

sli.do   7th Euro-Argo Science meeting CODE: #7EAScienceMeeting
